

# Contact and Support

Depending on your services with us, there are a number of support methods available to you.

## Fractional and Advisory Services

While using Fractional CIO/CTO services, we will be engaging with you on your platforms of choice. For startup advisory, we will include methods of communication as part of the contract.

## Consulting

For staffing consulting or technology architecture consulting, we will engage either on your platforms of choice or by a method identified in the contract.

## Galacticomm Software Products

As our catalog of software for Galacticomm systems is now free, we offer community support via [The Major BBS forums](#). You can always contact us by email at [info \(at\) elwynor.com](mailto:info@elwynor.com).

Ilefinian Castle is Elwynor Technologies' home Galacticomm Major BBS/Worldgroup bulletin board system (BBS). It demonstrates our Major BBS/Worldgroup software, and allows users to interact and receive support in the forums.

Login, create an account, and check out the forums most applicable. E-mail Questman on the BBS for help.
